RIL weighing bid for T-Mobile Netherlands

Deutsche Telekom declined to comment. A representative for Reliance could not immediately comment.

Deutsche Telekom is working with Morgan Stanley on the sale of the business, which has attracted interest from private equity firms including Apax Partners, Apollo Global Management Inc., BC Partners, Providence

Equity Partners and Warburg Pincus, Bloomberg News reported last month.

Buyout firms are drawn to such assets as they can gain control of underlying infrastructure, which offers steady long-term returns. In May, the Dutch telecom group Royal KPN NV said it had rejected an "unsolicited high-level approach" from investment firms EQT AB and Stonepeak Infrastructure Partners.

KPN shares dropped as much as 4.7% in Amsterdam on Tuesday to a three-week low on the news Reliance was

considering a bid for its competitor.

Reliance is India's largest company by market value with a business that spans oil refining, petrochemicals, retail and telecommunications. A deal for T-Mobile Netherlands would represent a rare purchase in Europe and come as Ambani tries to transform Reliance from an old-economy conglomerate into a technology and e-commerce titan.

Deutsche Telekom entered the Dutch mobile-phone market in 2000, acquiring a stake in a venture

with Belgacom SA and Tele Danmark. The business was renamed T-Mobile Netherlands in 2003 after the German carrier bought the remainder.

It considered a sale of the unit in 2015 to raise funds to buy wireless frequencies in the US, before deciding to keep the business. In 2019, T-Mobile Netherlands merged with Tele2 AB's operations in the country to create one of the biggest local carriers.

Speaking at an investor day in May, Tele2's chief executive officer Kjell Johnsen confirmed the company planned to sell its 25% holding in T-Mobile Netherlands and focus on its core markets in the Nordics and Baltics.

Need long overdue aid to maintain current 3+1 structure: Mittal

The telecom czar was alluding to the current telecom industry construct that has three private players and one state-owned operator.

Mittal hoped that the government and the regulators will step in to ensure there is adequate balance in the industry and it remains a viable place for continued investments.

India continues to be a "promising destination" for long-term investors, he pointed out.

"We have the opportunity to transform India into a global leader in the digital economy. We must continue to evolve our policies to realise these opportunities while encouraging investments, entrepreneurship and innovation through collaboration," Mittal said pledging that "Airtel is ready to play its part".

The telecom sector has been a chief catalyst in the transformation of India and its economy over the last 25 years, and played a seminal role during the pandemic by keeping a nation of over one billion connected, Mittal said terming it an "outstanding feat".

Mittal said that even amid the pandemic and industry challenges, Airtel had demonstrated "remarkable resilience" and, in fact, came out "much stronger" during the last financial year.

"Our focus on executing our strategy while showing financial prudence has ensured that we deliver in the midst of perennial challenges," Mittal informed.

The company continues to have a healthy balance sheet with "enough and more" headroom to continue investing strategically for growth, he emphasised.

"With digital platforms operating at scale across the organisation, we believe that we have all the building blocks for the next phase of our growth," the top boss of Airtel said.

Given its large investments over the past few years,

Airtel has built a formidable integrated product portfolio which will give the company an opportunity to tap emerging opportunities and deliver services at scale.

"As the Indian economy digitises further, there are large opportunities ahead in areas such as data centres, submarine cable deployment, cloud services and cyber security. We will look to scale up our investments in these areas in the coming fiscal," Mittal said.

A strong foundation is in place for making Airtel a 'truly digital first company' to serve Digital India, he said adding that the company has the ability to develop world-class platforms and digital solutions on the back of in-house engineering talent and strong partnerships with players including Amazon, Google, Verizon, Ericsson, Nokia, Qualcomm, Intel, IBM, Cisco and Apollo Hospitals.

"This is a big transformation as we embed digital into our DNA and sharpen our focus on serving customers who live in a world of connected devices," he said.

Slowing economy: Fewer people saw income over ₹100 cr in AY21

The rate of economic expansion plunged to an 11-year low of 4% in FY20, compared with 6.5% in the previous year, as the growth in both private consumption and fixed investment slowed down drastically.

As per the information available with the CBDT, there is no legislative or administrative definition of the term billionaire under direct taxes, she said.

To curb tax evasion, including through under-reporting of income, the income tax department has stepped up action in recent years. Such action includes searches, surveys, enquiries, assessment of income, levy of tax, interest, penalties, etc, and filing of prosecution complaints in criminal courts, wherever applicable.

Replying to another question, minister of state for finance Pankaj Chaudhary told the Rajya Sabha that ₹81,179 crore was yet to be released to the state governments towards fully compensating them for their goods and services tax (GST) revenue shortfall for the financial year 2020-21.

"The states will be paid full GST compensation as per the GST (Compensation to States) Act, 2017, for the transition period by extending the levy of compensation cess beyond 5 years to meet the GST revenue shortfall as well as servicing the loan borrowed through special window scheme for which GST Council has already given its approval," Chaudhary said.

Banks keen to fund stalled Amrapali Group projects: NBCC

Currently, the NBCC is facing execution hurdles due to slow inflow of cash which is expected to get sorted soon.

"All the credit of these initiatives taken for completing the works of erstwhile Amrapali group projects goes to the Supreme Court of India, appointed Committee members and the team of NBCC collectively working to end the long wait of the suffered homebuyers," the statement said.

Last week, NBCC informed that the SBICAP Ventures has agreed to provide ₹650 crore for completing six stranded projects of erstwhile Amrapali Group in Uttar Pradesh. SBICAP Ventures has signed a Memorandum of Understanding (MoU) with the Court Receiver for providing ₹650 crore for the six stalled projects. The MoU will pave the way for completion of flats of 6,947 homebuyers.

The six projects are -- Silicon City-1, Silicon City-2, Crystal Homes, Centurian Park-Low Rise, O2 Valley and Tropical Garden across Delhi-NCR.
